MOTOTEC, 101 accessories for riders who live their motorcycle every day

SGR Group's accessories brand covers lighting, protection, styling, clothing and accessories, and reaches dealers through the Group's companies in Italy, France, Spain and Germany.

MOTOTEC is SGR Group's motorcycle accessories brand, made for riders who live their motorcycle every day. It offers functional and aesthetic upgrades for the bike they already own. The range counts 101 products in five categories: lighting (41), protection (23), styling (21), clothing (12) and accessories (4).

Lighting is the largest category: 18 LED indicators, connectors for seven makes (BMW, Ducati, Honda, Kawasaki, MV Agusta, Suzuki and Yamaha), adapters that fit indicators to the original mounts of the Yamaha MT-07 and MT-09 and the Kawasaki Z-650 and Z-900, with further kits for Honda, Kawasaki and Suzuki, and the MT-20 and MT-30 LED auxiliary lights, sold in pairs and operated by a wireless remote control.

There are 12 mirrors in five designs (R1X, VX-R, RND, CFR-1 and CFV-2), in aluminium or aluminium and carbon fibre, in touring and bar-end versions. The range also includes 19 tank pads, 4 motorbike covers, 9 handlebars, the Perfect Dry rain suit, thermal balaclavas and neck warmers, a 150 cm chain lock, a smartphone holder and a toll-tag pouch.

MOTOTEC is not sold online. The mototec.it website, in Italian, English, French, Spanish and German, shows the full range and directs buyers to the distributor in their country: SGR Italia, MORACO in France, Euromoto 85 in Spain and Langenscheidt in Germany, which supply the dealers.

ABOUT MOTOTEC
